

RESISOLV 111

SOLVENT FOR CLEANING TOOLS AND SPECIFIC THINNER FOR EPOXY FORMULATIONS

RESISOLV 111 is a thinner made from high-quality raw materials. It is primarily used to dilute one- and two-component basecoats, gloss and matt finishes. Additionally, it can be used to clean and degrease paint guns, brushes, rollers, and other paint-soiled tools due to its high solvent capacity.

Technical characteristics

Consistency	Clear liquid
Colour	Colourless
Density	about 0,883 kg/ℓ
Auto-ignition temperature	245 °C
Boiling temperature	101-130 °C
Flash point	< 21°C
Water solubility	Not miscible

How to use

To dilute

To achieve the desired consistency, dilute the product according to the application method (brush, roller, airless spray).

To clean

For cleaning surfaces, brushes, rollers, and tools soiled with paint or varnish, use the product as is, as long as they have not yet dried.

Notes

Before use, always perform a preliminary test following the instructions provided in the technical data sheets of the products used.

Packaging and storage

Always consult the safety data sheets before handling the products.

RESISOLV 111 is supplied in canisters of 5, 10 and 25 ℓ.
